Edition *terms*

The Carol House at Closing Time · English edition 1.0 · issued 19 November 2026 · Seller: Northern Lantern House LLC, trading as Tangled Thistle

These terms supplement the Terms of Sale at tangledthistle.blog/terms-of-sale/ for this new edition. They do not replace the terms of any earlier purchase. Your receipt and these terms record what you bought.

1. WHAT YOUR PURCHASE LICENSES

Your purchase licenses the named World and edition shown on your receipt.

This is a **commercial hospitality edition**. It licenses the purchasing business and its controlled subsidiaries to customise, promote and operate this experience at up to **five simultaneously active registered operational units** per purchase. You may repeat the experience without a yearly renewal or per-event fee, and you may charge guests for it. No exclusivity, protected territory or supplier commitment is granted. Independent franchisees and unrelated businesses need their own licence.

2. WHAT COUNTS AS A UNIT

Three authored zones in the Hotel World Season are creative content. They are not three additional unit slots. Five slots never mean five bespoke property designs.

- **Dining:** each distinct restaurant, café, bar, tea room or independently operated dining or lounge outlet is one unit, including outlets inside one hotel. A terrace, private dining room or overflow area shares its parent outlet's unit when it is part of the same service offer and not separately bookable.
- **Event venues:** each independently bookable venue or suite is one unit. Rooms hired and run together for one engagement share a unit.
- **Lodging:** one named hotel, inn or resort on one contiguous property is one lodging and common-space unit covering arrival, shared guest spaces and guest-room touches. Each independently operated dining outlet there is an additional unit.
- **Pop-up or mobile:** one active unit at one address at a time. Sequential deployments may replace the slot; concurrent ones use separate slots.
- **Outside this licence:** retail shops, attractions, museums, schools, care facilities and short-term-rental portfolios need a separately agreed permission.

3. CONTROLLED SUBSIDIARIES

A controlled subsidiary is an entity you control through more than 50 per cent of voting ownership or an enforceable right to direct its management. Shared branding, a minority stake, a management contract alone or a franchise agreement is not control. If a subsidiary leaves your control it must stop use or buy its own licence. A merger successor that assumes your obligations may continue after notifying us. Selling a venue, your assets or these files does not transfer the licence.

4. REGISTRATION AND REPLACEMENT

Before first public commercial use, send us a notice through tangledthistle.blog/contact/ with: order reference, legal purchasing entity, business contact, World and edition, and for each active unit its name, type, address (or deployment address and dates) and operating entity. The registration form in your asset library sets this out. Registration is a notice and a record, not an approval: a complete, dated submission within your purchased scope is effective when sent. Keep a copy. You can download and prepare immediately; registration is needed before public operation, not to unlock files. We will never ask for passwords, card numbers or guest lists.

You may replace a unit without fee on permanent closure, relocation, a completed temporary engagement or a genuine change of operating unit. Tell us the retiring unit, the new unit and the date, and confirm the retiring unit has stopped. There is no annual cap and no waiting period. Never exceed five active units.

ADAPTING AND SHARING

You may adapt the supplied material, recipes, menus, branding, guest print and presentation for your licensed use. Public credit to Tangled Thistle is optional. We keep our underlying original rights; you keep rights in your own original contributions. Neither gives a right to redistribute the other's pre-existing material. Do not claim our original work as your own.

You may share necessary working files with your employees and contracted professionals solely for your licensed work. They may not independently reuse, sell, sublicense or pass on the originals. Do not share account credentials or download-recovery links, and do not post blank templates, source files or this package publicly. Finished guest-facing material and marketing for your own licensed occasion may be distributed as intended. The package itself may not be resold or offered as a resource.

THIRD-PARTY COMPONENTS

Typefaces: EB Garamond and Source Sans 3, each under the SIL Open Font License 1.1; the licence texts are in your Printables folder. Editable SVG files reference these fonts by name; install them (they are free) or substitute your own.

WHAT THIS PACKAGE IS

Creative and planning resources. It is not installation, catering, engineering approval, a tested kitchen service, an accessibility or safety certificate, or a promise of financial results. Recipes are developed, not kitchen-tested, and are labelled so. You and your qualified providers adapt and validate everything for your actual venue, kitchen and guests. Changes you make need no approval from us and must not be described as tested or certified by us. The music is specified in form only; composition, performance and any music licensing are yours to arrange.

DURATION, CORRECTIONS AND BREACH

Permitted use of this purchased edition is perpetual, subject to these terms. File hosting and support are not promised for ever; keep your own copy. Corrections to defective or materially inaccurate delivered files are supplied without a correction fee. New Worlds, major enhanced editions, added content and studio services are not automatically included. If a remediable material breach occurs we will give written notice identifying it and 30 calendar days to cure before ending the affected licence. Where credentials are compromised or files are being actively redistributed without permission, we may take urgent, proportionate steps to protect access while we look into it.

REFUNDS

The Terms of Sale's fourteen-calendar-day refund policy applies: a full refund, no reason and no deletion statement required, including after download. A refunded licence does not authorise future use. Rights and remedies for missing, broken or materially misdescribed purchases are unaffected, and so are any rights you have under applicable law.

LANGUAGES

This is the English edition. A Mexican Spanish (es-MX) edition is in AI-assisted review and is not released. When a qualified human review is complete and it is released, it will be included for this purchased edition without a second language charge and will share this same entitlement. No release date is promised.

PLAINLY

These terms are our completed working licence wording. They have not been reviewed by a lawyer and are not legal advice.
