Edition Terms

> *These terms supplement the Terms of Sale at tangledthistle.blog/terms-of-sale/ for this named World and edition. They are plain-language working terms prepared by the seller, Northern Lantern House LLC, and have not been reviewed by an independent lawyer. Nothing here removes a right you have by law.*

What you bought	Your purchase licenses the named World and edition shown on your receipt: The Twelve Rooms of Christmas, Complete World Experience, English edition 1.0.
Private use	The Complete World Experience is for your own private occasions. You may hire professionals to help you within that scope. It does not license an event business, restaurant, hotel or any independently reusable client resource. If you host for a living, you need a commercial edition.
Adapting it	You may adapt the supplied material, recipes, menus, branding, guest print and presentation for your licensed use. Public credit to Tangled Thistle is optional. We keep our underlying original rights; you keep rights in your own original contributions. Neither gives ownership of, or a right to redistribute, the other's pre-existing material. Third-party components, including the two open-licensed typefaces, keep their own terms.
Sharing with people who help you	You may give employees and contracted professionals the working files they need, solely for your licensed work. They may not independently reuse, sell, sublicense or redistribute the originals. Do not share account credentials or download links, and do not post blank resources or source collections publicly. Finished guest-facing material for your own occasion or licensed experience may be distributed as intended. The package itself may not be resold or offered as a resource.
What this is not	The package supplies creative and planning resources. It is not installation, catering, engineering approval, a tested kitchen service or a guarantee of any result. You and your qualified providers adapt and validate it for your actual venue. Recipes are complete and labelled honestly as developed, not kitchen-tested. Images are concept visualisations.
How long	Your permitted use of this purchased edition is perpetual, subject to these terms. New Worlds, major enhanced editions, added content and studio services are not automatically included. Corrections to defective delivered files are free. File hosting and online support are not promised for ever; keep your own copy.
Refunds	The fourteen-day refund in the Terms of Sale applies, with no reason and no deletion statement required for an ordinary request. A refunded licence does not authorise future use. Remedies for missing, broken or materially misdescribed files are not limited to that window.

If something goes wrong	For a breach that can be put right, we will give written notice naming the issue and thirty days to remedy it before ending the affected licence. Access narrowly affected by compromised credentials or active unauthorised redistribution may be suspended while we look into it.
Languages	English is supplied now. If a reviewed Mexican Spanish edition of this same edition is released, it is included in your purchase without a second charge and shares the same single entitlement.

Terms version XMAS-02 · English 1.0 · 19 November 2026 · Seller: Northern Lantern House LLC

Edition Terms

> *These terms supplement the Terms of Sale at tangledthistle.blog/terms-of-sale/ for this named World and edition. What you bought

Your purchase licenses the named World and edition shown on your receipt: The Twelve Rooms of Christmas, World at the Table, English edition 1.0.

Commercial use

This commercial edition licenses the purchasing business and its controlled subsidiaries to customise, promote and operate this experience at up to five simultaneously active registered operational units. Slots may be left unassigned. You may charge guests and repeat the experience without a yearly renewal or per-event fee. The licence is non-exclusive: no territory, partnership or supplier commitment is included. Independent franchisees and unrelated businesses need their own licence.

What counts as a unit

Dining: each distinct restaurant, café, bar, tea room or independently operated lounge is one unit, including several at one hotel. A terrace, private dining room or seasonal seating shares its parent outlet's slot only when it is part of the same service offer and not separately operated or bookable. Events: each independently bookable venue or suite is one unit; rooms hired and run together for one engagement share it. Lodging: one named hotel, resort or inn on one contiguous property is one unit covering arrival, shared guest spaces and guest-room touches; each independently operated dining outlet on it is a further unit. A pop-up or mobile deployment is one unit at one address at a time. Retail shops, attractions, museums, schools, care facilities and standalone short-let portfolios are outside this licence and need separate permission. A list or diagram of your property settles the count before use.

Control

A controlled subsidiary is one in which the buyer holds more than half the voting ownership or an enforceable right to direct management. Shared branding, a minority stake, a management contract alone or a franchise agreement is not control. If a subsidiary leaves your control it must stop or buy its own licence. A merger successor that takes on the buyer's obligations may continue after telling us. Selling a venue, assets or files does not transfer the licence.

Registration

Before first public commercial use, reply to your order email with: order reference; legal purchasing entity; a business contact; the World and edition; and for each active unit its name and type, address or deployment address and dates, and the legal operating entity. This is a notice and a record, not a design approval, and a complete submission is effective when sent. Keep a copy. We will never ask for passwords, card numbers or guest lists. Downloads are available as soon as payment clears; registration is not needed to open the files.

Replacing a unit	You may replace a unit without a fee when it closes permanently, relocates, completes a temporary engagement or genuinely changes. Tell us the retiring and the new unit and the date, confirm the retiring unit has stopped, and never exceed five active at once. There is no annual cap and no waiting period. A retired unit may keep a clearly historical record of the experience but may not go on advertising it as bookable.
Your changes	You do not need our approval to modify anything. Do not describe your version as tested or certified by the studio. You remain responsible for lawful operation and for genuine food and safety validation.
Adapting it	You may adapt the supplied material, recipes, menus, branding, guest print and presentation for your licensed use. Public credit to Tangled Thistle is optional. We keep our underlying original rights; you keep rights in your own original contributions. Neither gives ownership of, or a right to redistribute, the other's pre-existing material.
