

# Your Daisy edition

Complete World, World at the Table, World Residency and Hotel World Season. English 1.0.1 / 19 November 2026. These terms accompany the named tier on your receipt.

01 / EDITION TERMS

# Your purchased edition

## Your purchased edition

These terms apply to the named Daisy edition and tier on your receipt. Northern Lantern House LLC is the seller. They supplement the Tangled Thistle Terms of Sale supplied before checkout. Your receipt, the edition description and the supplied file index identify what you bought.

Earlier purchasers keep their actual order-time inclusions, language entitlements and license scope. These prospective terms do not replace an earlier business or client-use permission. The private-use terms apply to Complete World Experience; the commercial terms apply to World at the Table, World Residency and Hotel World Season.

02 / EDITION TERMS

# Complete World / Private Use

## Your own occasions

Complete World Experience is for your own private occasions. You may repeat the experience, adapt its styling and menus, edit the supplied artwork, and make the working and guest copies needed for those occasions. Public Tangled Thistle credit is optional.

This edition does not license an event business, restaurant, hotel, unrelated client work or an independently reusable client resource library. You may hire a chef, planner, designer, printer or other professional to help with your private occasion within this scope.

## Help from professionals

Give each professional only the working files needed for your permitted task. They may customize and produce material for you, but may not independently reuse, sell, sublicense or redistribute the underlying resources for other customers.

Do not share account credentials or paid download recovery links. Require the same limits on onward sharing. Remove active shared access when the engagement ends. A professional may retain one secure evidentiary archive only where legally or contractually required, without reuse. You may replace a supplier without granting that supplier rights for unrelated customers.

## The private-use package

The package provides the Daisy World Experience, its practical design and setup material, hosting and reset guidance, the complete included culinary and beverage collection, the six-page fillable party planner and the supplied guest printables. The accompanying file index identifies the actual files.

The Home12 service reference covers twelve guests: six chicken plates, three wheat-shell tart plates and three rice-shell tart plates, with the described dessert service. It requires three distinct people: Cook, Helper and Host. It does not automatically scale to another count or cover the whole welcome, late-soup, standing or weekend operation. Ask your cook or caterer to confirm the actual equipment, choices and timing for your occasion.

The farewell supplied for this edition is a flat card. Concept photography does not establish a manufactured standing paper-flower fold. Recipes and service plans are developed references, not kitchen-tested results.

03 / EDITION TERMS

# Choose the supplied commercial scope

## World at the Table

This edition supplies one complete restaurant supper format and one signature menu, with the World Experience, practical design and setup material, Service and Reset Guide, full selected Culinary and Beverage Kit, one five-tab Business and Service Planner, dining and service artwork and a compact restaurant launch kit.

The complete selected menu includes required dietary alternatives and zero-proof drinks. This edition does not supply a second banquet, separate bar or lounge service, hotel-room design, or a seasonal or weekend programme. The file index identifies the supplied resources.

Recipes and service are developed references, not kitchen-tested results. Your responsible providers confirm equipment, staffing, food handling, allergens, timing and lawful operation in the actual property.

## World Residency

Residency includes the signature restaurant supper and relevant World at the Table resources, one principal transformed room with connected arrival, social, quiet and reveal relationships, and one additional complete guest chapter: the after-dinner Late Sitting.

Choose a timed garden Turn or a garden visibly open in its completed state. Food is served to one booked cohort under a confirmed clock. An open garden does not promise continuously displayed food or rolling admissions.

The recurring-run edition includes maintenance, replenishment, changeover, reset and storage guidance. Its single five-tab workbook contains the relevant quantity, cost, optional stock-par and actual performance fields. The room diagram illustrates relationships, not a surveyed plan, engineered installation drawing or occupancy approval.

This edition does not supply the Hotel World Season breakfast, guest-room programme or three-zone property package. Recipes and service are developed references, not kitchen-tested results. The file index identifies the actual supplied resources.

## Hotel World Season

Hotel World Season joins three coordinated expressions: arrival/shared space, Bureau lounge and dining. It includes the Public Supper and Minutes and Departures breakfast, the after-dinner Late Sitting, a guest programme that can unfold over up to three days and repeat through a season, and guest-room welcome and itinerary material.

The package includes cross-outlet handoffs, rolling setup, care, changeover, reset and storage; the complete practical design and setup Atlas and botanical takeoff; the selected culinary and beverage collection; service and booking copy; guest print and launch assets; and one seven-tab workbook for quantities, costs, programme performance and World Stock.

A single visit can provide a satisfying experience without a stay, repeat booking, phone or participation. The guest-room material supplies welcome and printed touchpoints, not room-refurbishment design. Three creative zones do not grant three extra license slots: count the property's actual operational units under these terms.

Committee lunch/potting and optional wines are outside this two-menu edition. Recipes and service are developed references, not kitchen-tested results. The file index identifies the actual supplied resources.

04 / EDITION TERMS

# Commercial use and registration

## Five active operational units

One commercial purchase licenses this named World and purchased tier for the purchasing business and its controlled subsidiaries at up to five simultaneously active registered operational units. Slots may be left unassigned. English and later released Mexican Spanish files share those same five slots.

You may customize, promote and operate the licensed experience, charge guests and use your own business branding. The license is non-exclusive and perpetual for the purchased edition, with no annual renewal, per-event fee or prescribed season length. No geographic exclusivity, protected trading area, venue partnership or supplier commitment is included.

Five slots do not include five bespoke property designs. A tier licenses the creative and operating material actually supplied for that tier; eligibility of a property does not add unpurchased hotel, dining or other programme content. Additional slot blocks are not currently offered.

## Register before public operation

Before first commercial public use, send a complete dated notice through the purchase-help route: reply to your order confirmation, email hello@northernlanternhouse.com, or use https://tangledthistle.blog/contact/. Keep a copy. We maintain the registration with your order.

Include your order reference, legal purchasing entity, business contact, World and edition, and each active unit's name, type, physical address or temporary deployment address and dates, and legal operating entity. Where a controlled subsidiary uses the license, state the basis of control. Include the active-slot total and any replacement's effective date and retiring unit.

Registration is a notice and record of licensed use. It is not a studio-design approval or venue certification. A complete dated submission within the purchased scope is effective when sent; delayed acknowledgement alone does not invalidate it. Correct incomplete records promptly after notice.

Registration is required before public operation, not to unlock files. Your protected download is available when payment and order entitlement are valid. No automated registration portal or automatic certificate is included. Do not send passwords, payment-card numbers, guest lists or unrelated identity records.

## Replace a unit without a fee

A slot may be replaced without a fee for permanent closure, relocation, a completed temporary engagement or a genuine operating-unit change. Send the new and retiring unit details and effective date, and confirm that the retiring unit has stopped using the licensed experience. There is no annual replacement cap or arbitrary waiting period. Never exceed five simultaneously active units.

A former unit may retain a public factual archive clearly marked as historical, but may not keep advertising the retired licensed experience as bookable. Replacing a slot does not transfer the original files or independent rights to the former operator.

A pop-up or mobile deployment counts as one active unit at one deployment address at a time. Sequential deployments may replace that slot with recorded dates. Concurrent deployments require separate slots. One mobile unit does not license an unlimited network of simultaneous client engagements.

# Commercial use and registration

## Count each operating unit

Dining: each distinct restaurant, café, bar, tea room or independently operated dining or lounge outlet counts as one unit, including outlets at the same hotel. A terrace, private dining room, overflow or seasonal seating area shares its parent outlet's slot only when it is part of the same service offer and is not independently operated or bookable as a separate outlet. A standalone bar with its own service offer counts separately.

Non-dining: a distinct independently bookable event venue or event suite counts as one unit. Multiple rooms hired and operated together as one venue for one engagement share that unit. Independently bookable suites operating concurrently count separately. Ordinary partitions do not create extra units, and one street address does not combine independently operated venues into one unit.

Lodging: one named hotel, resort, inn or boutique hotel on one contiguous property or campus may count as one lodging/common-space unit, covering arrival, shared guest spaces and guest-room touches. Each independently operated dining outlet uses an additional unit. Separate properties or campuses count separately.

Other property-wide experience areas share that lodging/common-space unit unless they operate or are sold as an independently bookable venue or independent outlet. For mixed-use properties, count the actual lodging, dining and independently bookable venue units without counting the same area twice. Use a property diagram or list to resolve the count before use.

Retail shops, standalone attractions, museums, schools, care or health facilities and standalone short-term-rental portfolios are outside the standard hospitality entitlement and require separately defined permission. An ordinary private household occasion is covered by the applicable private-use license.

## Purchasing businesses and control changes

A controlled subsidiary is an entity more than 50% controlled through voting ownership, or controlled through an enforceable right to direct its management. Common branding, minority investment, a management contract alone or a franchise agreement does not establish control. Record the basis that applies.

Independent franchisees and unrelated businesses or clients need their own license. They cannot share your entitlement.

If control changes but the purchasing legal entity survives, that entity's own purchased rights continue. Subsidiaries that leave its control must stop use or obtain their own license. A merger successor that assumes the purchasing entity's obligations may continue the purchased scope after notifying us.

An asset sale, sale of a venue or sale of files does not transfer the license to an unrelated operator. Independent reassignment requires a separate written license; the files and license cannot automatically be resold.

## Customization and professional help

You may create or adapt menus, recipes, guest collateral, scenery, branding and promotional outputs within the purchased scope. Public Tangled Thistle attribution is optional. Your modifications do not require studio approval. They must not be described as studio-tested or certified. Unlimited studio revisions are not included.

04 / CONTINUED

## Commercial use and registration

You may provide employees and contracted chefs, designers, printers, fabricators and agencies the necessary editable or production-ready files solely for licensed customization, production, promotion and operation. Give each professional only the files needed and require the same limits on independent reuse, resale, sublicensing and onward sharing.

Do not share buyer account credentials or payment/download recovery links. Remove active shared access when the engagement ends. A professional may retain one secure evidentiary archive only where legally or contractually required, without reuse. You may replace suppliers; a supplier cannot use your license for unrelated clients.

05 / EDITION TERMS

# Terms for every edition

## Your contributions and our original material

You retain the rights you hold in your independently created contributions. Tangled Thistle/Northern Lantern House LLC retains the rights it holds in its pre-existing original material. Editing does not transfer either party's pre-existing rights. Do not claim ownership of Tangled Thistle's original works or use a contribution to redistribute embedded source assets outside your purchased scope.

We do not claim exclusive copyright in every generated image, public-domain element, recipe, method or third-party asset. Rights and restrictions follow each item's actual provenance. Keep the supplied private copyright, license and third-party notices with the source files. No public Tangled Thistle brand credit is required.

Third-party fonts, stock, software, trademarks and other licensed components remain subject to their disclosed terms. Editable files are provided only within their applicable redistribution and editing rights. Any separately required software or font license must be disclosed before checkout; an undisclosed third-party subscription is not a condition of the advertised package. The supplied font notices remain with the printable files.

## Finished outputs and reusable resources

You may distribute finished guest-facing invitations, menus and other collateral for your licensed use. Commercial buyers may sell the licensed hosted service, serve food and publish finished promotional outputs for their licensed units.

Do not resell, sublicense, distribute or provide independent access to the underlying packet, blank templates, source art, recipe-book collection, workbook or a competing resource library. Do not post source or blank production files, private answer keys, account credentials or paid recovery links publicly. Your own contributions do not create permission to redistribute embedded original resources.

## Prepare for your actual venue

The package supplies creative and planning resources. Installation, catering, food, drink, rentals, printing, professional services, engineering or venue approval, a tested kitchen service and guaranteed financial results are not included.

You and your responsible qualified providers adapt and validate operation for the actual venue. Confirm appropriate equipment, safe support and routes, staffing, food handling, allergens, service timing and any required permissions. Your modifications remain your responsibility and must not be presented as studio-tested or certified.

Concept photography illustrates the World; it does not prove that an installation has been built or a recipe has been kitchen-tested. The supplied service references and the file index define the delivered scope.

## Use over time and corrections

You may use the purchased edition perpetually within its license. No yearly renewal or per-event fee is required for that use. New Worlds, materially enhanced major editions, additional content and studio services are not automatically included. Corrections to defective or materially inaccurate delivered files are supplied without an extra correction fee.

Perpetual use does not promise permanent download hosting or indefinite online support or design advice.

05 / CONTINUED

## Terms for every edition

Keep a local backup of the files, receipt and accepted edition terms.

We retain purchased versions and buyer-entitlement records for supported delivery. If a delivery route is retired, affected buyers receive notice and a reasonable migration or export route that preserves their purchased use rights.

## Refunds and faulty files

You may request a full refund within fourteen calendar days of purchase without giving a reason, including after downloading. An ordinary refund request does not require a deletion affidavit or an explanation. A refunded license does not authorize future use; files cannot be remotely erased.

A missing, broken or materially misdescribed component may still be raised after the ordinary refund period for investigation, correction or an appropriate remedy. Mandatory rights and applicable statutory remedies remain unaffected.

## Problems with permitted use

For a remediable material license breach, we identify the specific issue in writing and allow thirty calendar days to remedy it before terminating the affected license. Termination for an uncured material breach requires written notice; the affected licensed use must then stop.

We may immediately and proportionately suspend access narrowly affected by compromised credentials, malware or active unauthorized redistribution while investigating. Unrelated lawful entitlements remain intact. One unit's correctable registration error does not automatically cancel every license in a corporate group.

These edition terms add no mandatory arbitration, forum-selection clause, penalty, new warranty disclaimer or liability cap. The Terms of Sale remain the sales framework, and applicable statutory rights and remedies are preserved.

## Languages and access

This edition is English. Mexican Spanish has not yet been released for the new edition and has no promised release date. Later reviewed Mexican Spanish files for the purchased edition are included when available without a second language fee. Both languages share the same purchased license and commercial-unit entitlement. Earlier purchasers keep their promised language rights.

Protected files are supplied through the order confirmation, account or receipt download route when payment is cleared and order entitlement is valid. There is no arbitrary download-count or expiry restriction while supported storage is maintained; proportionate fraud and security action is separate. No ongoing account subscription is required to use your downloaded files.

Keep your own backup. For missing or inaccessible files, contact us with the product name, order reference if available and purchase email address so we can investigate, restore the purchased resource or provide the applicable remedy.

## Contact and purchase help

Reply to your order confirmation, email hello@northernlanternhouse.com, or use https://tangledthistle.blog/contact/. Commercial registration and replacement notices use these same routes. Keep a copy of notices and correspondence.

Include only the order and contact details needed for the request. Do not send passwords, payment-card details, guest lists or unrelated identity records. We retain the necessary purchaser and registration information under the applicable privacy policy.

## Terms for every edition

The Tangled Thistle Terms of Sale are available at https://tangledthistle.blog/terms-of-sale/.

## Opening your private-use files

Use a PDF reader that supports saving form entries for the six-page, 80-field party planner. Print at the size specified in each file. Use compatible vector software for supplied SVG artwork and a DOCX editor for any supplied Word file. DejaVu and Liberation font notices are included.

This private-use edition does not include a working calculation workbook, Canva template, editable photo layers or a functioning app. The supplied file index identifies the actual editable formats.

## Opening your commercial files

Use a PDF reader, compatible XLSX software for the supplied workbook, a DOCX editor for supplied Word files and compatible vector software for supplied SVG artwork. Print at the size specified in each print file. The font notices are included.

World at the Table and World Residency each supply one five-tab workbook. Hotel World Season supplies one seven-tab workbook. Use the instructions and editable assumptions in the actual workbook for its stated scope. No Canva template or subscription, editable photo layers or functioning app is included.
